CURRICULUM VITAE - DANIEL J. CLAVELLE, M.EC.

Education:

Master of Economics

University of Calgary, 1998

Thesis: *An Evaluation of the Protected Marine Reserve (PMR) as a Solution to Over-Fishing in the World's Oceans*

Bachelor of Arts (economics)

University of Calgary, 1991

Publications:

I have also aided in the research and publication of the 2002 to 2004 annual loose-leaf editions of Brown, C.L., *Damages: Estimating Pecuniary Loss* (Aurora, ON: Canada Law Book, 2004), as well as a forthcoming article to be published by C.L. Brown in the *Advocates' Quarterly* entitled *Expert economic witnesses in Civil Litigation: Quantum Experiments*.

Consulting Experience:

Senior Consultant

Brown Economic Consulting Inc. (November 1, 2001 to present)

- Research, analyze, write and sign economic reports dealing with potential income, dependency, disability, pension, cost of care and housekeeping losses arising from personal injury, fatal accident and sexual assault claims for individuals and groups employed in a multitude of occupations and industries;
- Provide specific knowledge, experience and expertise in dealing with self-employed cases, as well as cases falling under the *Fatal Accidents Act* and *Survival of Actions Act* ("Duncan" cases);

Fax: 403/571-0932

Email: danclavelle@browneconomic.com

- Aid in the research, development and application of Canadian before-tax personal consumption rates by family size and income level used in fatal accident cases;
- Scope of report writing involves cases and jurisdictions in British Columbia, Alberta, Saskatchewan, Ontario, Nova Scotia, New Brunswick, P.E.I., Newfoundland, Northwest Territories, Nunavut, the Yukon, United States and United Kingdom, with particular experience with the Saskatchewan and Ontario no fault insurance schemes;
- Collaborate on large projects dealing with multiple claims, including major work pertaining to the deaths of 9 miners in the Northwest Territories (*Fallowka et al v. Royal Oak Ventures et al*, 2004), as well as over 70 sexual assault cases in Nunavut and in-depth analysis of the Maritime fishing industry;
- Research and produce industry profiles on a variety of sectors, including mining, oil and gas and health care, as well as various community profiles outlining economic and social characteristics;
- Research into the impact of disability on employment and in particular, contingencies applied to individuals rendered paraplegic or quadriplegic as a result of various incidents; and
- Remain current with respect to various economic phenomena such as inflation, interest, unemployment, non-participation, part-time and productivity rates; and contribute CPI and unemployment data for various economic regions for publication in Brown Economic Consulting's monthly publication entitled the *Economics Editor*.

Previous Employment Experience and Contributions:

Collections Enforcement Officer

Canada Customs and Revenue Agency (December 1997 to October 2001)

- Enforced the collection of complex corporate, GST, payroll and individual tax accounts through the application of the *Income and Excise Tax Acts*,

with the main focus of work dealing with corporate and self-employed clients across a variety of industries;

- Developed expertise in analyzing financial statements and the activities of many types of businesses (proprietorships, partnerships, small and large corporations) across a large number of industries; and
- Prepared collection strategies and submitted reports to and worked with Department of Justice counsel on complex legal cases.

Customer Service Representative/Credit Officer
Shaw Pipe Protection Ltd. (January 1995 to December 1997)

- Responsible for the pricing, receipt, scheduling and delivery of pipe coating orders for oil and gas projects, involving liaison with clients, steel mills and a number of company plant facilities across Canada and the United States, work involved the preparation of bids and monitoring of existing, new and proposed oil and gas transmission and production lines to keep abreast of industry developments; and
- Previously responsible for the credit and collection of North American operations, including the forecasting of revenues and preparation of materials for monthly, quarterly and annual company financial reports; designed and implemented the company accounts receivable software.

I have also been employed as a credit officer for a large telecommunications company (Associates Commercial Corp. of Canada Ltd, 1992-1995), and as a research analyst for a building association (AADAT, 1991-1992). In these positions, I have:

- Coordinated all legal files with counsel;
- Provided testimony in civil and bankruptcy cases in British Columbia and Alberta; and
- Published reports and recommendations on fees, pricing and the economic outlook for the building industry, and presented these results in a variety of seminars and association meetings
